About This Game

Monochroma offers a deeply visual, intellectual and emotional experience. The game has a unique approach to storytelling without using any written or spoken words. Therefore it requires the player to be actively involved to understand the narrative. The story itself becomes part of the puzzle. Gameplay, visuals and the very limited color palette are used in an expressionist way to help telling the story. The player will find lots of references to other movies, books and games in the dystopian world of Monochroma. The challenge of the game is to make the player think about himself, his role in the society and the system we're living in.

The gameplay, deriving from the story, consists of a boy that has to take care of his younger brother who injures his leg in the beginning of the game. The younger brother is afraid of the dark therefore the player can only put him down under the light to be able to jump higher and move faster but the player can't leave him behind just as in real life.

Monochroma features realistic locations and puzzles blending with the environment. Puzzle designs are far from the arbitrary trial and error gameplay but still challenging. If the players dies the game has a fast checkpoint system that doesn't punish the player.

Title: Monochroma Demo
Genre: Action, Adventure, Indie
Developer:
Nowhere Studios
Publisher:
Nowhere Studios
Release Date: 27 May, 2014

a09c17d780

Minimum:

OS: XP or later

Processor: 2GHz or better

Memory: 2 MB RAM

Graphics: Shader Model 3.0 Support
